MN14. An

RELEASED IN FULL

(14) Ambassador Rawson met with Gen. Dallaire in Nairobi before going on to Buj. Dallaire told him the following:

- o The UN is expected to start moving the APC's from Somalia today or tomorrow. 150 Ghanaians are to arrive during the same time frame.
- o Dallaire has "scrubbed" the Ghanaian equipment list and sent it back to DPKO in New York.
- o He is opposed to training Ghanaians in Egypt because of the political implications (alleged Egyptian arms transfers to the GOR). He said the Canadians are considering sending a team to train in Kigali. (DPR suggested following up with the Canadians on this.) Dallaire said he can train the drivers in Kigali with the APC's he already has and mainly needs help with mechanical training.
- o He wants a "ready-kit" (transport, mobile kitchens, etc) to equip the Africans and make it possible for the troops to move around.
- o He wants the U.S. to keep pushing to get the spare parts through New York customs for the APC's.
- o He said that when the equipment starts coming in from various directions (Buj, Kampala, etc), he will need help with movement control. Otherwise, there may be supply choke points.
- o He wanted to know whether the U.S. could provide Dallaire with satellite photos so UNAMIR could find out what was going on in the southern part of Rwanda.
- o He was "upbeat" on the cease-fire talks. Both sides were starting to negotiate the "nitty-gritty" details.
- o He does not think Kagame will push further south. (The UN has made the point to Kagame about the serious humanitarian effects a continued advance to the South would have.)

JCS card - note
1.0 ✓ for APC's we add the
✓ are moving forward
✓ for to get us prepared.
